### ▶ CHECK-OUT PROCEDURE

**Yacht should be returned to Base, a day before the end of the charter period, latest by 18.00pm.** To help us be of better service please advise our Base Manager of your **expected arrival time to base, in advance.**

**Upon your return and after mooring your boat at the indicated berth in the marina, you will need to refill the fuel tank on spot in Skiathos marina.** For more information, please ask the Base Manager. Once you are done refueling, you can enter the marina, our staff will be waiting for you where the yacht was moored on the day you departed from the marina.

If during your trip you have noticed any sort of problem or malfunction of the yacht we would be very grateful if you could advise our staff. It is essential to maintaining a high quality fleet of yachts for you, that you provide us with any remarks regarding the function and the condition of our vessels, even minor ones, as we believe that detail makes the difference.

During check-out you are kindly asked to allow our staff to come aboard and inspect the yacht and her equipment; your presence is not mandatory so you will not be wasting any time on this. This inspection is detailed, as we need to assure that the yacht will be in perfect condition, not lacking any inventory, for the following clients chartering her after you. After every charter, the yacht is also inspected underwater by the diver so as to avoid any inconvenience.

### Typical itineraries

You can start your holiday from Skiathos enjoying the unspoiled bays and small ports of the Gulf of Volos and sailing to the beautiful green islands of Sporades, such as Skopelos, Alonissos, Skantzoura and Pelagos. Sheltered and unspoiled anchorages along with sandy white beaches, will offer you the pleasures of an unforgettable holiday. Within a distance of 50 miles you can sail up to the Chalkidiki peninsula. The Chalkidiki peninsula reaches out into the Northern Aegean, with three smaller peninsulas Kassandra, Sithonia, and Mount Athos.

The area is well known for the Alonissos National Marine Park. Dolphins, sea turtles and one the most endangered species of seal, the Monachus-Monachus or Mediterranean seal lives there, so if you are lucky you may encounter some of the most beautiful and friendliest marine creatures! The prevailing winds in this area are mostly N-NE at Force 2-5, which usually die out during the night.
