Paros is so fascinating on so many levels that many people love it having seen only one of its faces. Don't jump to conclusions about what you like, get to know the island first and find your "own" Paros, the face that suits you best. No doubt, though, it will charm you even if you see a different side from the one expected. The island of Paros is famous for its golden beaches, clear blue waters and nightlife.

Sifnos belongs to the West Cyclades and is situated in the middle of the triangle formed by Serifos, Kimolos and Antiparos. Crescent-shaped Santorini (or Thíra), the precious gem of the Aegean, is actually a group of islands consisting of Thíra, Thirassiá, Asproníssi, Palea and Nea Kaméni in the southernmost part of Cyclades. Did you know that the whole complex of Santorini islands is still an active volcano (the same as Méthana, Mílos & Nísiros) and probably the only volcano in the world whose crater is in the sea?

Parts of the island reach a considerable height above sea level, offering superb views out over the Archipelago, Amorgós is one of the most impressive Cycladic islands, boasting marvellous beaches with azure waters, gorgeous caves, ideal spots for diving, scenic bays and ancient footpaths leading through its steep rocky terrain...
